

BIG Business Features...SMALL Business Price!

Net2Phone Office keeps it simple.

We offer **40+ advanced business features** and **Unlimited Calling** to the US, Canada, and 23 International destinations at a fraction of the price!

Find Me/Follow Me

Your phone number can be forwarded to any phone, anywhere!

Virtual Receptionist

Let a customized auto attendant answer and route all your calls.

Remote Office

Combine multiple offices under one simple phone system.

Company Directory

Let users choose a department or extension from a customized menu.

Call Flow Dashboard

Monitor live calls on your phone system.

Call Queue

Route callers to the next available company representative in the queue.

Time Based Greetings

Create customized messages for holidays, long weekend, or any time of year.

On Hold Music/Audio

Allow your customers to enjoy music while they are on hold.

Call Screening/Blocking

Lets you know who is calling you before you accept or reject the call.

Voicemail/Email Integration

Listen to your messages right from your email!

Conferencing

Have a three way conversation - or more!

Reporting

Analyze your traffic easily. Detailed history for every extension!

Faxing

Send faxes instantly without tying up your phone line.

Interoffice Paging

Page by extension - it's that simple.

Call Recordings

Record calls as they are happening.

Simultaneous Ring

Your phone number can ring on one or many devices at the same time!

Local Number Portability

Keep your existing phone number; we will help you port it.

Virtual Phone Number

Create a local presence almost anywhere in the world!

...and more!
